MATERIAL TEST REQUEST

FormPak offers free bulk material testing to help customers understand how their material behaves in our equipment. Typical tests are listed below but additional testing can be performed if agreed upon. **All tests require a \$500 PO. Invoicing of PO will only occur if testing material is not returned within 30 days of testing date.** This is to cover any disposal fees if the material is left in FormPak's possession. Customer agrees to cover shipping and handling fees to and from FormPak. The amount of material required by FormPak is dependent on the test desired. Reach out to FormPak Engineering for the required amount.

DISCLAIMERS

- Temperature and humidity vary at the testing facility and can affect material performance.
- Material purity cannot be guaranteed after testing.
- Some loss of material is expected during testing.
- Test equipment material of construction is dependent on the equipment on hand at the time of testing and can't be selected.
- Hazardous Materials can't be tested.
